Naturalmente is an Italian hair-care brand, deeply inspired by aromatherapy, newly launched in the UK. Their products are bio dynamic and plant and botanical-based. We absolutely love their anti-oxidant shampoo and conditioner that left our hair feeling soft and looking super healthy.

Grahams Skincare

www.grahamsskincare.co.uk

Grahams Skincare now has a complete range of natural products and contains innovative natural ingredients and plant lipids, including emu oil, manuka honey and colloidal oatmeal, to deeply penetrate layers of the skin to intensely nourish and help repair the skin's protective barrier. We tried their Natural Body Wash which left our skin feeling lovely clean and soft, without drying out the skin.

Rouge Bunny Rouge Liquid Foundation

www.rougebunnyrouge.com

Infused with the romanticism and fantastical fairy tales of Victoriana and regalness of Tsarism, Rouge Bunny Rouge exalts the lost art of story telling through the grace and fluidity of wordsmith voice and botanical illustration. Every product is innovative, inspiring and delivers on the promise to enhance your natural beauty. We adore their products, especially their liquid foundation! This dreamily light gel texture blends and moves with the contours of the face like a second skin and minimises imperfections to give the appearance of a flawless complexion. Not only does it do its job, it also is packed full of ingredients that soften and repair the skin. A must have!

www.frontcovercosmetics.com

Comprising of 18 gorgeous shades straight from the catwalk in show-stopping block brights complemented by the very latest spectrum of softer, more subtle tones, this kit will take you from day to night. The kit also features ShadowLine, a fluid that turns any eyeshadow into eyeliner at the flick of a wand.
